2023 Grant Recipient Announcement

Congratulations to the [23 new investigators](#) joining the esteemed roster of KidneyCure grant recipients this year. These talented researchers are making vital contributions to our understanding and treatment of kidney diseases, including developing new diagnostic tools, exploring the genomics of kidney development, and quantifying the relative importance of structural racism and genetic risk factors in health disparities.

Our new grant recipients discuss their supported projects, inspirations, and interests outside the lab in these [Q&A's](#).

Grant Recipient Video

In our latest video, hear from several former grant recipients about their work and how KidneyCure grants fund tomorrow's cures.

Grant Recipients at Work

Current and former KidneyCure grant recipients work across the research spectrum to advance our understanding and treatment of kidney diseases. Find highlights of recent publications, press, etc., submitted by KidneyCure grant recipients [here](#).
