December 2024

In This Issue:

- Year-in-Review
- Grant Recipient Video Interview: Laisel Martinez
- Grant Recipients at Work
- Grant Recipients' 2024 Top Achievements

Year-in-Review

Thank you for another remarkable year. In 2024, KidneyCure provided over \$3 million to 42 kidney investigators through various research grant programs and supported nine endowed lectures at ASN Kidney Week 2024. These accomplishments were possible because of your generosity and support.

ASN and KidneyCure wish you and yours a happy holiday season as the year wraps up.

Grant Recipient Video: Laisel Martinez, PharmD

Check out a new video interview with Laisel Martinez, PharmD. Dr. Martinez is a Research Assistant Professor at the University of Miami Miller School of Medicine and is a Co-Director at the UM Vascular Tissue Biobank. In 2023, she received the inaugural KidneyCure Diversity, Equity, Inclusion, and Justice Research Scholar Grant, which is fully endowed by Otsuka, Visterra, and ASN. In the interview, Dr. Martinez discusses how she hopes her work studying the role of catheter-derived inflammation in dialysis will help patients and contribute to a cure.

Grant Recipients at Work

Current and former KidneyCure grant recipients work across the research spectrum to advance community understanding and treatment of kidney diseases. Find recent publications and press coverage highlighted by KidneyCure grant recipients [here](#).

Grant Recipients' Top Achievements

KidneyCure celebrates grant recipients' professional achievements from the year, including awards, promotions, and other major accomplishments. [Learn more](#) about the top 2024 highlights as reported by grant recipients.
